TRAINED REPAIR PROFESSIONALS

Dynasty Auto Body, Inc. is proud to be a Gold Class Collision Center. The Gold Class recognition indicates that our technicians are trained in the proper repair techniques and procedures that contribute to the complete and safe repair of your vehicle.

As a Gold Class shop, we require each of our technicians involved in collision repair to take ongoing training every year. This includes classes on new vehicle technologies and the latest repair techniques.

Dynasty Auto Body, Inc. is among only 10 percent of collision repair businesses to achieve Gold Class status, whereas shops that are not Gold Class may train minimally or not at all. Gold Class shops are trained on how to fix your vehicle right; on what can be repaired and what needs to be replaced; and on how to see hidden damage you may not see.

Two out of three people find a repair shop by talking to friends or relatives. Don't take chances. Refer your customers, friends and family to Dynasty Auto Body, Inc. and let our trained repair professionals take care of them today.
